SCSWDD#2 Customer

Subject: Notice of Sweetwater County Solid Waste District #2's Rate Change

Dear Valued Customer:

Due to regulatory requirements, SCSWDD#2 installed a scale and has been weighing all solid waste disposal at the landfill over the past 3-6 months. Prior to the scale, SCSWDD#2 has been charging by the size-volume of the truck/trailer entering the site.

The weights collected over the past 3-6 months have been compared to past volume rates in order to determine a tonnage-based rate. Packer type containers/trucks average approximately \$65.00 per ton. Volume based rates dramatically range from less than \$20.00 per ton to over \$150.00 per ton. This range was due to the set volume prices and types of waste.

Based on our analysis, we are setting the rate at **\$65 per ton** for all non-residential customers. Customers bringing in C/D material will be charged **\$50.00 per ton**.

Rate change will start 45 days from the date of this letter (April 27, 2021).

Residential customers will still be weighed, but not charged. Some customers total fee will go up and others will go down. We hope you understand, and we will re-evaluate the rate structure again a year from now.

If you have any questions, please contact us.

Sincerely,

Sue Ann Rigano

Manager
